

SASKATOON'S ARTS &
CONVENTION CENTRE

BOOK YOUR HYBRID MEETING

Combine your face-to-face event with virtual technology by holding a hybrid meeting.

What is a hybrid meeting?

Bring your events online with expert assistance. A hybrid meeting provides an opportunity to participate live or with on-demand viewing for those attendees who are unable to take part in-person. We can help you stream anything from a webcast to an interactive roundtable discussion. Virtual participants can view a presenter's slides, as well as watch and listen to the speaker via live streaming video or recording.

What are the benefits?

- » Increase your engagement and improve attendance by combining in-person and virtual delegates
- » Stream your event to viewers on computers, tablets or mobile devices anywhere in the world
- » Build instant archives of your presentations
- » Stream in real-time, broadcast, or pre-record your event
- » Virtual delegates can participate alone or in groups

Need customization?

- » Our expert technicians provide the highest quality webcasting experience
- » Live polling for local and remote participants available
- » Connect multiple events that occur concurrently or at different times and locations to offer breakout sessions
- » Our team can help create unique experiences for local and remote audiences
- » Presentation can originate inside TCU Place or a location of your choice
- » Hybrid or virtual-only event services available
- » Ask about our customization and pricing options
